- HTML / CSS / Responsive UI
- Node.js / Express
- REST APIs / CRUD
- Odoo
- Supabase / Firebase
- Flutter / Dart
- Git / Docker / Vercel

STRENGTHS

Teamwork, product thinking, AI-assisted drafting, debugging, refactoring and documentation with manual review and testing.

MAI TRAN THIEN TAM

FULLSTACK DEVELOPER | MAITAMDEV

PROFILE

Final-year Software Engineering student at Hung Vuong University with hands-on full-stack experience. I build practical web, mobile and AI-powered products and care about reliable, maintainable delivery.

EXPERIENCE

FullStack Developer

Jan 2025 - Feb 2026

Valley Campus | Odoo

Built, tested and fixed issues for an Odoo-based e-commerce website serving health-protection and cosmetics products.

EDUCATION

Hung Vuong University

2023 - 2027

Software Engineering | Final-year student

SELECTED PROJECTS

SCS GO

React, TypeScript, Flutter, Supabase

Smart EV charging platform for station discovery, booking, location analysis, mobile access and AI recommendations.

DHV Guiding Light

React, TypeScript, Firebase, Node.js

One-to-one mentoring platform connecting university students with advisors through bookings and practical guidance tools.

SafeReturn / FindBack

Next.js, TypeScript, Supabase, Solana, Groq

AI-assisted lost-and-found platform with realtime data, evidence review and Solana Devnet escrow.

Sora POS V2

React, Node.js, Express, PostgreSQL, Groq

Retail POS for inventory, role-based access, analytics and AI-assisted restocking decisions.

ACTIVITIES

Innovation & Startup 2025

Developer for DHV Guiding Light and SCS GO, turning real community and mobility ideas into working software products.
